## OF INTEREST TO WOMEN

### When Things Fade.

A powder comes for the purpose of restoring faded color to thin fabrics without dyeing them. It is sold in little pasteboard boxes in all the light colors—lavender, pink, blue, ecru and other pastel shades. After you have washed the faded fabric until it is clean, you sprinkle some of this powder in the rinsing water and rinse the fabric until it has absorbed enough of the color.

Of course, the powder has to be used each time the fabric is washed. But it is much easier and more satisfactory than a dye, that must be boiled in, for some things, or crepe de chine underwear, for instance, or negligee can be wonderfully freshened and brightened with this coloring powder.
